

**Cornell University  
Facilities Services**

**College of Veterinary Medicine  
Class Expansion**

*Project Manager:* Brad Newhouse  
*Architect:* Weiss/Manfredi Architects  
*Project Size:* 106,500 GSF  
*Location:* College of Veterinary Medicine Complex

*Project Description:*

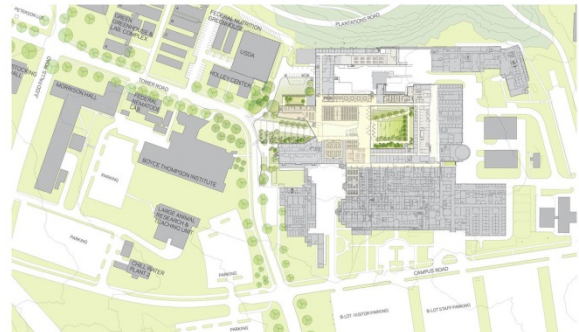

The purpose of this project is to design and construct the additions, renovations, and expansion efforts required to support the College of Veterinary Medicine (CVM) Class Expansion program. This will allow the College to increase the Doctor of Veterinary Medicine (DVM) enrollment to 120 students.

The project will be implemented in two phases. Phase I will include full design and construction of lecture halls, demonstration areas and common space to support the planned growth. Phase II will include renovation and repurposing of existing facilities to support the continuing DVM education programs.

*Project Status:*

The project will be presented to B&P in June from design approval. The design team is working to refine details of the design to bring the schematic estimate within the approved Capital Plan budget.

COLLEGE OF VETERINARY MEDICINE

*Schematic Design – Overall Site Plan*

ENTRY COURTYARD

*Exterior Elevation and Main Entrance – Looking East from Tower Road*

<u><i>Approvals to Date:</i></u>	<u><i>CFPC</i></u>	<u><i>B&amp;P</i></u>
Concept/Scoping Study	Aug 09	
Project Plan	Nov 11	Jan 12

*Project Milestones:*

Scheduled Design Start:	Aug 12
Phase I:	
Scheduled Construction Start:	Apr 14
Scheduled Completion	Apr 15
Phase II:	
Scheduled Construction Start	Apr 15
Scheduled Completion	Oct 16
